497 Main Road
GLENORCHY TAS 7010

Dear Sir,

RESEARCH INTO USE OF LOY YANG FLYASH AND BOTTOM ASH

We are familiar with your technology and research objectives and find your work interesting to us as our current rate of waste utilisation is low.

We understand your technology could potentially result in a viable road material and possibly bricks from our fly ash and bottom ash. We would therefore be most interested in discussing with you our support for research and development with a view to large volume use of our wastes and we are preparing the samples you have requested.

Yours faithfully
